

# Pray for Me

Sixx:A.M.

She lights a candle but she doesn't know why  
She wants to save me but I'm barely alive  
My soul is thirsty, I just wanna get high  
Make her go away

Well, now I'm hitting the wall and she begs me to quit  
And she drags me to church but I'm scared to commit  
And I'm losing my mind 'cause she hides all my shit  
She won't go away

And all I ask of her is  
Pray for me 'cause I don't want to  
Pray for me if you love me

Cross your heart and hope  
That I won't die before the best day of my life  
Just pray for me tonight

I drag myself out of the bed that she made  
And I escape her in a black motorcade  
She's pushing bibles and a clear bill of health  
I can't make her go away

And now I'm hitting the wall and she begs me to quit  
And she drags me to church but I'm scared to commit  
And I'm losing my mind 'cause she hides all my shit  
She won't go away

And all I ask of her is  
Pray for me 'cause I don't want to  
Pray for me if you love me

Cross your heart and hope  
That I don't die before the best day of my life  
Just pray for me tonight

Now I'm hitting the wall and she begs me to quit  
And she drags me to church but I'm scared to commit  
And I'm losing my mind 'cause she hides all my shit

And all I ask of her is  
Pray for me, I don't want to  
Pray for me if you love me

Cross your heart and hope  
That I won't die before the best day of my life  
(Pray for me tonight)

Pray for me  
(Pray for me tonight)  
Pray for me  
(Pray for me tonight)

Pray for me  
(Pray for me tonight)  
Pray for me  
(Pray for me to)
