

## Relief

Sixx:A.M.

We're all alone in your house of panic  
(It's just an ordinary thing)  
And all the things that you love make you manic  
(But you can't take them to the grave)

But you look like you could use a friend  
Someone to make this madness end  
To make this madness end  
Someone to make this madness end

And in a little while  
All the noise in your head will fade away  
And you will find some relief then  
Yeah, you will find some relief then  
And in a little while  
All the weight in the world feels like a light rain  
And you will find some relief then  
Yeah, you will find some relief then

Your heart beats but you feel like you're dying  
(It's just an ordinary thing)  
You're so numb but you can't stop crying  
(Wake up the horror masquerade)

But you look like you could use a friend  
Someone to make this madness end  
To make this madness end  
Someone to make this madness end

And in a little while  
All the noise in your head will fade away  
And you will find some relief then  
Yeah, you will find some relief then  
And in a little while  
All the weight in the world feels like a light rain  
And you will find some relief then  
Yeah, you will find some relief then
