

# You Have Come to the Right Place

Sixx:A.M.

Hey, how long have you been crawling with the sick and appaling?  
Its like a cancer  
Hey, you gotta rise up outta darkness gotta leave behind the heartles  
s  
You'll find the answer  
If your the last on earth, feel like your damned or cursed you have c  
ome to the right place

If you have lost yourself, you can escape the hell, you have come to  
the right place  
Sometimes you feel like giving up  
Sometimes you've bled out enough  
Sometimes gotta believe in something

Cause your not the only one  
Standing there losing blood  
You have come to the right place this time  
Hey, how long have you been rotting?

Your veins are slowly clotting, your growing weaker  
Hey, you gotta wake up from the nightmare  
There's nothing you will find there, except the reaper  
If your the last on earth, feel like your damned or cursed

You have come to the right place  
And if you have lost yourself, you can escape the hell  
You have come to the right place  
Sometimes you feel like giving up  
Sometimes you bled out enough

Sometimes you got to believe in something  
Cause your not the only one, standing there losing blood  
You have come to the right place  
Sometimes you feel like giving up  
Sometimes you've bled out enough

Sometimes you got to believe in something  
Cause your not the only one, standing there losing blood  
You have come to the right place  
If your last on earth, feel like your damned or cursed  
You have come to the right place

And if you have lost yourself, you can escape the hell  
You have come to the right place  
Sometimes you feel like giving up  
Sometimes you've bled out enough

Sometimes you've got to believe in something  
Cause your not the only one, standing there losing blood  
You have come to the right place this time
