

# Good Morning

Sizzla

Fire bun  
Yea so we just make music  
We write songs, yea we sing we dj  
We make lyrics alright  
It's better to be poetic than be slandering  
So why they're wondering and pondering eh? ok

Good morning to all my kids and my darling  
Don't you hurt yourself its a warning  
Take care of yourself all you people out there  
When you're driving or walking  
Good morning to all my kids and my darling  
Don't you hurt yourself its a warning  
To all you beautiful people out there  
Hahaha... wow

I wake up in the morning say thanks that's the grace  
Went in the shower brush my teeth have a bath wash my face  
Got to go to work that's the place  
I got to make some dough no time to waste  
Went through the gate, stop to perform,  
Stop at the stop light hmmm keep my calm  
People see me and say high  
Niggas passin by out in their own

Good morning to all my kids and my darling  
Don't you hurt yourself its a warning  
Life the greatest of all  
Good morning to all my kids and my darling  
Don't you hurt yourself  
Hahaha... ok

Unity is strength there aint no other way  
You gotta see the sun shine live for another day  
People ah wonder what doing,  
True dem hear me and de music I play  
Bun the pope bun the jezebel  
Damn Vendetta tun up the music to bout 100 decibel  
Aye punany you feeling well  
No make corruption bring you go hell

Good morning to all my people and my darling  
Aye don't you hurt yourself its a warning  
Good morning to all my kids and my darling  
People don't you hurt yourself its a warning  
Hahaha...

Whoa give thanks and praise onto Emperor Selassie I  
He's the king of kings  
So we live on the flat and we go in the mountain  
And we drink from the fountain spring  
And love is life, respect and honor  
That's what blessing we bring hahah...  
Yo to the blessing we cling

Good morning to all my kids and my darling  
Don't you hurt yourself its a warning

Take care of yourself all you people out there
