

# Know Yourself

Sizzla

Get a hold of yourself you better go know yourself I  
say  
Babylon you never see the rain for Mussolini Selasse I  
blaze  
Better get a hold of yourself you better go know  
yourself I say  
We will be praising Jah from the olden days to the  
golden days

So they want bout you out and later on they shoot you  
out  
You stand there and run up your mouth until the fire  
burn you out  
Me say me black and me proud African shout aloud  
They burning and fighting for crown trying to care  
themselves alone

Get a hold of yourself you better go know yourself I  
say  
Cause we will be turning Babylon dust in the final days  
Better get a hold of yourself know yourself stop the  
playing  
Got to be giving thanks and praise to the ancient of  
ways

Oo oo oo oh they want to know  
How do I go through everyday  
They haven't got a clue ooh ooh ohh  
They fight and fuss they lost their mind  
And don't even know who is it  
He is your own child and dirty  
We could make it work out even though we don't  
deserve it  
Why did you go and disturb him

Get a hold of yourself you better go know yourself I  
say  
Cause we will be turning Babylon dust in the final days  
He is the ruler the ruler of the crown every night and  
day  
Emperor Salassi I hes anointed I

So they want bout you out and later on they shoot you  
out  
You stand there and run up your mouth until the fire  
burn you out  
Me say me black and me proud African shout aloud  
They burning and fighting for crown trying to care  
themselves alone

Get a hold of yourself you better go know yourself I  
say  
Cause we will be turning Babylon dust in the final days  
Better get a hold of yourself know yourself stop the  
playing  
Got to be giving thanks and praise to the ancient of  
ways
