

# Love You More

Sizzla

Yeah, I'm singing this one for all you beautiful people out there  
I say don't hurt yourself, gosh, wha why y'all doing that?  
I say it's love alright

Love you more, giving you some more  
You're who I'm living for, what all those killing for?  
Love you more, giving you some more  
You're who I'm living for, what all those killing for?

I'm just used to you so near  
People when you're not there  
A part of me goes in despair  
My whole heart and soul declare

Crime and violence everywhere  
I heard you loud and clear  
People trying to reach, ain't gettin no where  
Children dying, parents shedding tears

Bloodshed in the street  
Oh gosh, I don't wanna see it  
Babies got nothing to eat  
People got no place to sleep

No clothes splinters in their feet  
Those with the power still got shot coming  
Raising taxes 'stroying our economy  
Working hard still we got no money

Love you more, giving you some more  
You're who I'm living for, what all those killing for?  
Love you more, giving you some more  
You're who I'm living for, what all those killing for?

Learn to respect yourself  
You're a shining star, stop your fighting  
With all our hate, could we get this far?  
Love and unity, that's what it's all about

Don't y'all know the system  
Is polluted inside out  
Hate and grudge, all of these things  
Makes you honorable for the system

When you're disobedient  
You become the victim  
Humble and give praise  
While you're still living, yeah

Love you more, giving you some more  
You're who I'm living for, what all those killing for?  
Love you more, giving you some more  
You're who I'm living for, what all those killing for?
