

# Lovely Life

Sizzla

I say happy days we are living  
Well thanks and praise we must be giving  
Yea yea, this one is life,  
which is the whole apple,  
something smooth...

Life has been lovely yea-ee  
could't have been better for me  
Life has been lovely  
takes simplicity to see  
Life has been lovely yea-eh  
could't have been better for me  
Life has been lovely  
takes humility to see

As you see the earth you know I'm blessed  
Still they search looking for happiness  
What you got to have and what they done get  
Tell me how does one measure greatness?  
Love to see the flowers bloom as the butterflies flirt  
For a little food I see the hands them ah search  
All 'bove these things we inherit from the earth  
Cuz yuh trod it from birth like Selassie I the first  
You see... life is for I and I to live  
and after life my friend there is nothing to give  
So don't you go burning your bridge

Life has been lovely yea-eh  
could't have been better for me  
Life has been lovely yea-ey  
takes simplicity to see  
Life has been lovely yea-eh  
could't have been better for we  
Life has been lovely  
takes simplicity to see

Once more  
As you see the earth you know I'm blessed  
Still they search looking for happiness  
What you got to have and what they done get  
Tell me how does one measure greatness?  
Give thanks for all things Jah has sent  
With them all I'm so content  
Give thanks to Mother Nature and all her friends  
They beautify the earth with such lovely essence  
Ey, where at, so fine you stood your grounds  
How could I have that and show any signs of frowns  
Don't violate the laws of nature that's my song

...lovely yea-ey  
could't have been better for me  
Life has been lovely yea-ey  
takes simplicity to see  
Life has been lovely yea-ey  
could't have been better for me  
Life has been lovely  
takes simplicity to see

So Sweet

As you see the earth you know we're blessed  
Still they search looking for happiness  
What you got to have and what they done get  
Oh how does it measure greatness?

Life has been lovely, whoa oh so lovely  
Life has been lovely, I mean lovely

Oh yes

Love to see the flowers bloom as the butterflies flirt  
For a little food I see the hands them ah search  
All 'bove these things we inherit from the earth  
And yuh trod it from birth like Selassie I the first  
Hey joy come in all sort and Jah love come in all portion  
Observe the vegetation as ah yuh walk  
giving thanks to be in this region  
You can't condemn no my friend  
'Cuz as you see the earth you know I'm blessed  
Still the search looking for happiness  
What you got to have and what they done get  
Oh how does one measure greatness?

Life has been lovely yes  
could't have been better for me  
Life has been lovely  
takes simplicity to see  
Life has been lovely
