With vast education, steadfast for the nation
You might be thinking while you're in the situation
"Life have opportunity"? Congratulations.
Show love and unity, you giveth inspiration
And answers, with the necessary information
About to live among ourselves in this civilization
Knowledge, woah, remove the frustration
Building a new way, for the foundation
To the college, provide all His accommodations
Thanks for all your achievements, you made

Red, gold and green rule the world!
