

Solid As A Rock

Sizzla

They can't keep a gooda man down
Always keep a smile when they want me to frowns
Keep the vibes and they stood my grounds
They will never ever take my crown

Who Jah bless I say no man curse
Things gettin' better when they thought it would be worse
Here comes the officers askin' for a search
They found no weapon just only a draw of herbs

'Cause I'm so solid as a rock, they just can't stop me now
Even when they set their traps, they just can't stop me now
People will say this and that, they just can't stop me now
Even when they set up road blocks, they just can't stop me now

When they come with their evilest thoughts
I just listen whenever they talk
Jah is the light into my dark
He cut and tear my path

They fight without a cause
Tryin' to make my life so hard
The King of kings and the Lord of Lords
Give it all rewards

I'm so solid as a rock, they just can't stop me now
Even when they set there traps, they just can't stop me now
People will say this and that, they just can't stop me now
Even when they set up road blocks, they just can't stop me now

So don't you mix me up with your dirty games
You're only tryin' to tarnish my name
You're only lookin' for the innocent to blame
When your the ones who issue the guns down the lane

You only cause destruction and frame
But the righteous will lives and [Incomprehensible]
Love is all I got to give and I'm not ashamed
Lookin' towards the future, this lion can't tame

'Cause I'm so solid as a rock and they just can't stop me now
Even when they set there traps, they just can't stop me now
People will say this and that, they just can't stop me now
Even when they set up road blocks, they just can't stop me now

So they can't keep a gooda man down
Always keep a smile when they want me to frowns
Keep the vibes and they stood my grounds
They will never ever take my crown

Who Jah bless I say, "No man curse "
Things gettin' better when they thought it would be worse
Here comes the officers askin' for a search
They found no weapon just a only draw of herbs

So solid as a rock, they just can't stop me now
