

I hate you so

Skarface

You said you really love me
But how could it really be
You want what is best for me
In fact you're my ennemy!
io o You want me so
io o I just say no
io o Just let me go
io o I hate you so
You, political party
You're not what really suits me
You take me then you leave me
You're wasting your time with me
You say that you're the right choice
I know you just want my voice
Do you think I want to agree
With what you're planning for me?
