

Leave me alone

Skarface

Why don't you just leave me alone, I can manage it on my own

So why why can't you just leave me alone, I will survive without a clone

Is it so hard to understand that I don't need another bone

So is it so bad for you to see that I just want to be alone

So why don't you just leave me alone, I say I can manage on my own

And why why can't you just go back home, I will survive without a clone
