

Once Upon A Ska

Skarface

* Once upon a time, in the kingdom of France,
Was a band called Skarface.
This band could have been playing... Punk Rock *

Everybody here seems to love or wish this shit society
And no one there want to realize that some have nothing
to eat
We gonna fight, fight, in the neighbourhood
We gonna fight until they fall
We gonna fight, fight, fight, in the neighbourhood
Till we destroy your rules

* And they could also have choosen... Psycho Billy *

They just come from another planet
Their mission is to invade the Earth
Better run, no weapon can kill them
They're big, black and hairy
So beware of giants spiders
Beware of giants spiders

* Even if they wanted, they could have been playing...
Soul music *

You make me feel all right - All right
You make me feel OK - OK
When you come in my arms - All right
I wish that you will stay - OK
Come back baby, come back baby, right now

* They could have been playing... Oi! music *

I'm gonna break the rules
Today I feel good
I'm gonna kick you fools
I'm coming to you
I'm just a youth...
Beware no respect for you
A warrior SkinHead, I don't care
Here I come Oh, Eh, Oh, I've nothing to loose
Nothing to come back to
Oh, Eh, Oh, Feel in good mood to give a punch or two

* But no, my dears and only friends, no, no, no, no,
no!
Absolutely no! If they united together, it was just to
play...
SKA! *
