

## Rambo AK47

Skarface

My name is Rambo AK47, based on fatal big machine gun  
I jump and I kill like anybody else  
Years of training fit my body Soft on my sofa, I'm upon  
the best  
The head in the screen I'm boss to put the mess  
Soft on my sofa this ain't no more game  
The head in my PC, I'm seeking for the fame  
Now I'm bleeding and my weapon is empty  
This butcher chief has nearly blow me  
What's coming next, what's behind that door?  
No backup left to restore that shit!  
The world is so cruel when you want to save it  
Even if I was its last resort  
No one talk to me in this unreal reality  
But promise: I will come back and win!
