

City Of Sleaze

Skarhead

A concrete jungle
Violence and pain
Come here innocent
You won't leave the same
Greedy hands better watch out
Payback's a bitch and that's what it's all about

Drugs money sex
Make the world go around
Kings at crime
Run this town
So beg for your life
And get on your knees
I'm the cure
And your the disease

The rotten apple
The city that never sleeps
New York, New York
Home of the sleaze
Dropped many suckers like you in my past
Scum like you don't deserve a second chance

Drugs money sex
Make the world go 'round
Kings at crime run the town
So beg for your life
And get on your knees
I'm the cure and your the disease
