

Crazy Eddie

Skarhead

Nuthouse - let's make a trip uptown,
so later on we can all get down,
we'll have happy faces on, no one will frown,
act wild and crazy like a circus clown.
In this little bag there's so much fun.
In this little bag could be deadly as a gun.
So let's make it up to 116
where everyone is shady and tries to scheme.

Crazy Eddie - He's giving it away
Making us - Mentally insane

After our visit, we weren't the same.
Shaun and Bundy were the ones to blame
for letting that devil run through our veins,
making Brooklyn and Queens completely insane.
In the L.E.S - We were zombies.
In the L.E.S. We were crawling on our knees.
SO this goes out to angel dust 116
for not letting us know if it was reality or a dream
