

Evil Woman

Skarhead

I won't be waving goodbye to you my dear anymore.
I won't be shedding a tear anymore.
I won't be making excuses for the break anymore.
I never said you were mine.

You're cold hearted
You're an evil woman

I wined you, dined you, gave you a brand new home. Baby.
Now you're out of my life, you're out on your own. Baby.
Evil woman, I hate you. Baby.
Evil woman, I am not your fool.

Evil woman, evil woman, evil woman, evil woman.

Gonna get, gonna get yours.
Gonna get, gonna get yours.
Gonna get, gonna get yours.
Evil woman.

You're not gonna ruin my life anymore.
You're not gonna get one over on me anymore.
No more lying and crying anymore.
Fuck your cheating eyes my dear.

You're cold heated
You're an evil woman
