Closest Thing To Love (i've Ever Seen)

Skeeter Davis

You never give me all the love a woman craves 'Cause there's a part of youth you seem to want to save I must admit you're not the man of my dreams But you're the closest thing to love I've ever seen.

You're not the kind of man I always hoped to find But when I'm in your arms I never really mind Cause there's a feeling that has taken hold of me 'And it's the closest thing to love I've ever seen.

Why should I go looking for somebody new The closest thing to love I've seen is you.

I'd waited for your touch to end this burning fire But your love always leaves a lot to be desired Yes, there can never be enough of you for me 'Cause you're the closest thing to love I've ever seen...
