

God Loves His Children

Skeeter Davis

I was a stranger brother out in sin
Didn't even have the love of God within
But now I found him and I'm glad to say
I love my Saviour every day.

God loves his children brother, yes, I know
He will protect you anywhere you go
Just call upon him he will hear your prayer
God will protect you anywhere.

Brother take warning while yet you have time
Don't let no Satan lead you down the line
Just tell old Satan to stay out of your way
God loves his children everyday.

God loves his children brother, yes, I know
He will protect you anywhere you go
Just call upon him he will hear your prayer
God will protect you anywhere.

I'm glad I've found him and I'm on my way
I'm gonna follow Jesus every day
Nothing can change me and I'm glad to say
God loves his children every day.

God loves his children brother, yes, I know
He will protect you anywhere you go
Just call upon him he will hear your prayer
God will protect you anywhere...
