

Good Love Is Like A Good Song

Skeeter Davis

I was a lonely soul no voice in the crowd
Just singing sadly with my head always bowed
I hadn't anything of which to be proud
And then I saw him and my heart sang out loud.

Oh a good love is like a good song
It grows on you till it's so strong
It never leaves you it never goes wrong
You know a good good love is like a good song.

We introduced ourselves my heart simply soared
We walked and talked about the things we adored
Within the rhythm of the rain as it poured
I heard the echo of an old familiar chord.

I said a good love is like a good song
It grows on you till it's so strong
It never leaves you it never goes wrong
You know a good good love is like a good song.

I said I loved him and he said he loved me
To me these words were like a symphony
We were the happiest duet you'll ever see
Till I found out we loved in three part harmony.

And a good love is like a good song
It grows on you till it's so strong
It never leaves you it never goes wrong
You know a good good love is like a good song...
