

I Can Stand It

Skeeter Davis

I can stand it as long as you can
'Cause I just don't need you anymore.

You got it in your mind your leavin's hurt me
That I sit and cry while you paint the town
And all this time you's thinking that I need you
Well really it's the other way around.

I can stand it as long as you can
'Cause I just don't need you anymore.

I'll wait here by the phone a few nights longer
I'll give you every chance to save your heart
You're only out dancing with a new love
Just to keep from falling all apart.

I can stand it as long as you can
'Cause I just don't need you anymore.

I just don't need you anymore...
