

I Won't Be Hanging Around

Skeeter Davis

From now on I won't be hanging around from now on I won't be hanging around
I've taken all I can so you can't be my man from now on I won't be hanging around
It's a long time I waited my darling just hoping someday you'd settle down
But now it's too late it's all over from now on I won't be hanging around
From now on I won't be hanging around...

I've tried and I've tried make you love me but night life and bright lights you found
It's the only love you'll ever know my darlin' so from now on I won't be hanging around
From now on I won't be hanging around...
From now on I won't be hanging around
