

## Just As Soon As I Get Over Loving You

Skeeter Davis

I'll go out at night to old familiar places  
Stop awhile maybe see a friend or two  
And your image won't be there in all their faces  
I won't fall apart if they should mention you.

I won't spend my time forgetting or forgiving  
Or lie awake and cry the whole night through  
I may even find a reason to be living  
Just as soon as I get over loving you.

I'll be in another's arms when I awaken  
He'll hold me just the way you used to do  
I won't think about the one whose place he's taken  
Just as soon as I get over loving you.

Just as soon as I get over loving you...
