## Just As Soon As I Get Over Loving You

## **Skeeter Davis**

I'll go out at night to old familiar places Stop awhile maybe see a friend or two And your image won't be there in all their faces I won't fall apart if they should mention you.

I won't spend my time forgetting or forgiving Or lie awake and cry the whole night through I may even find a reason to be living Just as soon as I get over loving you.

I'll be in another's arms when I awaken
He'll hold me just the way you used to do
I won't think about the one whose place he's taken
Just as soon as I get over loving you.

Just as soon as I get over loving you...
