

Let's Get Together

Skeeter Davis

Love is but the song we sing fear's the way to die
You can make the mountains ring or make the angels cry
Know the dove is on the wing you need not know why
C'mon people let's get together
Smile on your brother and love one another right now.

Some may come and some may go this will surely pass
When the one who left us here returns for us at last
We are but a moments sunlight fading on the grass
C'mon people let's get together
Smile on your brother and love one another right now.

When you'll hear the song we're singing you will understand
You hold the key to love and fear in your trembling hand
Just one key unlocks them both it's there at your command
C'mon people let's get together
Smile on your brother and love one another right now.

C'mon people let's get together
C'mon people let's get together
C'mon people let's get together
C'mon people let's get together
Smile on your brother and love one another right now
C'mon people let's get together
Smile on your brother and love one another right now
C'mon people let's sing with us
C'mon people let's get together
Smile on your brother and love one another right now
C'mon people let's get together
Smile on your brother and love one another right now...
