

# You Taught Me Everything That I Know

**Skeeter Davis**

You taught me to kiss so it would thrill you you showed me how  
to hold you so close  
You told me just how to love you you taught me everything that  
I know  
I wore my hair the way you liked it you even tipped out my clot  
hes  
Yes I did everything just to please you you taught me everythin  
g that I know  
I was like rain in your hands you made me love you so  
Now you tell me you don't want me you say just forget and let y  
ou go  
Well I don't know a thing about forgetting all I've learned is  
how to love you so  
And if you leave how can I learn to forget you you taught me ev  
erything that I know
