

Delerium

Skeletal Family

When you're walking alone in the night.
Take a look around, see the sights
I see you watching me, cold
Run to my shelter but it's gone. x2

Oh the ecstasy
Delirium
Can you feel it now
Delirium

You've got the fire that burns like ice
A diamond gaze that's bright as night
Words which softly wounding, heal
As laughing you decide what's real x2

Faithfully like drifting smoke
Bleached emotions starkly bare
The search for truth yet unconfounded
Giving me delicious blindness x3
