

Someone New

Skeletal Family

She's a little girl, in a big town
She said she loved you, she's never let go
You loved her, ever so much
You never knew, how much she cared

When she got older, she still loved you
She never believed that, you were leaving so soon
Going away, leaving town
Leaving her friends, and all that background

She's happy now she's found someone new
Yeah she's happy now she's found someone new
You all know him
But we can't tell you

We never expected, this at first
Who she loved??, through and through
They used to meet, on a sunday
No one knew, no one cared

She's happy now she's found someone new
Yeah she's happy now she's found someone new
You all know him
But we can't tell you

She's happy now she's found someone new
Yeah she's happy now she's found someone new
You all know him
But we can't tell you
