

## Baptized in Flames

Skeletonwitch

Evil one now arise  
As the witch has prophesized  
Once cast down now return  
Spread the seed unholy birth  
Inverted crosses burn  
Light the way to the horns  
Unholy birth  
Satan spawn  
Baptized in flames  
Born demon seed blasphemy  
Baptized in flames  
Surfacing the one with wings  
Razor claw  
Hooves for feet  
Pure evil taking form  
Darkness falls across the earth  
Men will die  
Men will burn  
No mercy the hellfire  
Baptized in flames  
From black womb evil is born  
Taking lives from conception  
Born of death mother slain  
Taking hold of evil's reins  
Evil one now arise  
As the witch has prophesized  
Once cast down now return  
Spread the seed unholy birth  
Inverted crosses burn  
Light the way to the horns  
Unholy birth Satan spawn  
Baptized in flames  
Born demon seed blasphemy
