Skeletonwitch

The heavens bleed with fire Demons sent forth from Hell's domain Darkness, unleash the will of Satan Dead, this kingdom of decay

Burned and beheaded, the remains of angels Unholy Legions, shredding sacred flesh Slaughter of the righteous Destruction of the holy Monstrous perversion, wickedness

Drink the blood of the crucified angels
Praise the name of the unmerciful goat
Rip the heart from the soul of the innocent
Hang them from the cross around their throat

Curse the light, now become of the darkness Bewitch the heavens under evil's spell Decimate sacred spirits of divinity Torch the heavens with the flames of Hell

Drink the blood of the crucified angels
Praise the name of the unmerciful goat
Rip the heart from the soul of the innocent
Hang them from the cross around their throat
