

Another Dick in the System

Skid Row

I'm not the devil
But I can show my horns
All the things I did to you
Could have been in a porn
Then I heard the rumors
Now I know they're true
Some strange motherfucker
Is gonna do 'em to you

I said I loved you but you didn't listen
I know there's another dick in the system
I said I loved you but you didn't listen
I know there's another dick in the system

I've lived with angels
I've laid with whores
I gave you nothing but honesty
Then I licked your sores
I'm not the one to crucify
With blood, iron and wood
You're not the saviour to me anymore
You're damaged goods... Yeah

I said I loved you but you didn't listen
I know there's another dick in the system
I said I loved you but you didn't listen
I know there's another dick in the system

I said I loved you but you didn't listen
I know there's another dick in the system
I said I loved you but you didn't listen
I know there's another dick in the system
Hey Hey
Hey Hey
Hey Hey Hey
Hey Hey Hey
