

# Nothing

Skid Row

Houses on the hill  
Looking down on all the little people's lives  
And wondering it I've been missing out  
Growing up is hard, isn't that what Bowie sang  
When he was young  
Before he knew what growing up was like

Guess I'll never know, so I'll take it day by day  
As it comes until there's something else to think about

If I want it all then I'll get it all  
Do I need it all? I need nothing  
If I want it all then I'll get it all  
Do I need it all? I need nothing but you

Changing with the times  
Looking back on all our oldest memories to realize  
We haven't changed at all  
Records in my room  
It's still the place where we can go to get away  
from real life and real agony

If we should disappear, we can take it day by day  
As it comes until there's something else to talk about

If I want it all then I'll get it all  
Do I need it all? I need nothing  
If I want it all then I'll get it all  
Do I need it all? I need nothing but you

If I want it all then I'll get it all  
Do I need it all? I need nothing  
If I want it all then I'll get it all  
Do I need it all? I need nothing  
If I want it all then I'll get it all  
Do I need it all? I need nothing  
If I want it all then I'll get it all  
Do I need it all? I need nothing but you
