

# Shut Up Baby, I Love You

Skid Row

I say "it's your love that keeps me alive"  
But you drag me through the mud like a four wheel drive  
I've give you the moon, I'll give you my last beer  
I'd rather move too fast than be stuck in gear

Maybe there's something that I don't see  
Are you in 3D?  
Are you the devil's seed or the devil in me

What you gonna do? I told you I'd be true  
You scream at me until you're blue  
Now shut up baby, I love you  
Shut up baby, I love you  
Now shut up baby, I love you

It's been so long since I knew what's real  
Now my foot's on the floor and I'm spinning my wheels  
They say you left town with another man  
Now I'm off to Mississippi with a gun in my hand

Maybe there's something that I don't see  
Are you in 3D?  
Are you the devil's seed or the devil in me

What you gonna do? I told you I'd be true  
You scream at me until you're blue  
Now shut up baby, I love you  
Shut up baby, I love you  
Now shut up baby, I love you

Are you the devil's seed or the devil in me

What you gonna do? I told you I'd be true  
You scream at me until you're blue  
Now shut up baby, I love you  
What you gonna do? I told you I'd be true  
You scream at me until you're blue  
Now shut up baby, I love you  
Shut up baby, I love you  
Shut up baby, I love you  
Shut up baby, I love you
