

## A Little More

Skillet

Love is all around you now  
So take a hold  
Hidden in our words  
It sometimes ain't enough  
Don't suffocate day after day  
It's building up  
Cause when you're feeling weak  
You know I'm strong enough

Just one more day  
One more day  
Oh, let the world crash  
Love can take it  
Oh, let the world come crashing down  
Oh, let the world crash  
Love can take it  
Love can take a little  
Love can give a little more

Love is indestructible  
So take a hold  
Sometimes hard to find  
A reason good enough  
I'll stand beside you  
Never leave through it all  
And faith will bring a way  
To the impossible

You can find me  
You can find me  
You can find me anywhere  
Take a look over your shoulder  
I'll be standing there  
Standing there

Love is all around you now  
So take a hold  
And faith will bring a way  
To the impossible

Just one more day  
(You can find me, You can find me)  
One more day  
(You can find me anywhere)

Let the world crash  
Love can take it  
Oh, let the world come crashing down  
Oh, let the world crash  
Love can take it  
Love can take a little  
Love can take a little  
Love can take a little

Love can give a little more  
A little more  
Take a little more

Take a little more
