

Better than Drugs

Skillet

Feel your every heartbeat
Feel you on these empty nights
Calm the ache, stop the shakes
You clear my mind
You're my escape
From this messed up place
'Cause you let me forget
You numb my pain

How can I tell you just all that you are
What you do to me

R: You're better than drugs
Your love is like wine
Feel you comin' on so fast
Feel you comin' to get me high
You're better than drugs
Addicted for life
Feel you comin' on so fast
Feel you comin' on to get me high

Feel you when I'm restless
Feel you when I cannot cope
You're my addiction, my prescription, my antidote
You kill the poison
Ease the suffering
Calm the rage when I'm afraid
To feel again
How can I tell you just all that you are
What you do to me

R:

How can I tell you, just all that you are
What you do to me

Feel your every heartbeat
Feel you on these empty nights
You're the strength of my life

R:

Feel your every heartbeat
Feel you on these empty nights
Feel you comin' on so fast
Feel you comin' to get me high
Feel your every heartbeat
Feel you come to get me high
Feel you comin' on so fast
Feel you comin' on to get me high
To get me high
