

# Finish Line

Skillet

Good evening, my people up in the chandeliers  
The wining and dining, the menu is blood, sweat and tears

Everybody ready  
Raining down confetti  
Champions are born right now  
Ain't about the glamour  
Click goes the hammer  
Run when you hear that sound

Heroes never die  
Gonna make it to the finish line  
We know we survive  
Even if we crawl to the finish line  
I will believe it  
Underdog dreaming  
Don't need no cheers  
World's gonna see it  
Heroes never die  
Gonna make it to the finish line

Their dreams just keep dripping out of their golden cups  
I'm starting, I'm starving, leftovers ain't enough

Ain't about the royals  
They do nothing for you  
All you got is you right now  
Who is gonna falter  
Who is gonna conquer  
Better never count me out

Heroes never die  
Gonna make it to the finish line  
We know we survive  
Even if we crawl to the finish line  
I will believe it  
Underdog dreaming  
Don't need no cheers  
World's gonna see it  
Heroes never die  
Gonna make it to the finish line

Gonna make, gonna make  
Gonna make it to the finish line  
Every day, every day  
Gonna make it to the finish line

Gonna make, gonna make  
Gonna make it to the finish line  
Every day, every day  
Gonna make it to the finish line

Heroes never die  
Gonna make it to the finish line  
We know we survive  
Even if we crawl to the finish line  
I will believe it

Underdog dreaming  
Don't need no cheers  
World's gonna see it  
Heroes never die  
Gonna make it to the finish line
