

# One Real Thing

Skillet

Speak, and my heart starts aching  
Reach, and the numbness dims  
Beat, still my minds uncertain  
Breathe, it begins again

You are the One Real Thing  
You are the One True Thing that I know  
You are the One Real Thing  
No matter what the future brings  
You're the One Real Thing

Stay, locked within Your presence  
Truth, renew in my mind again  
Rest, cuz I know You're faithful and I  
Trust, cuz I know Your name

You are the One Real Thing  
You are the One True Thing that I know  
You are the One Real Thing  
No matter what the future brings  
You're the One Real Thing

I get down on my knees and I  
Feel Your love wash over me (One Real Thing) [4x]

Speak, and my heart starts aching  
Reach, and the numbness dims  
Beat, still my minds uncertain  
Breathe, it begins again, again...

You are the One Real Thing  
You are the One True Thing that I know  
You are the One Real Thing  
You are the One True Thing that I know  
You are the One Real Thing  
No matter what the future brings  
You're the One Real Thing

I get down on my knees and I  
Feel Your love wash over me (One Real Thing)
