

# Terrify the Dark

Skillet

No power on earth, no power in hell  
Is gonna steal my peace  
Ten thousand enemies, they will  
End up on their knees

When I'm hopeless  
I can know this  
You're with me

Your light will terrify the dark  
I call upon the name  
That tears the night apart  
My doubt will answer to your scars  
And fear will have no place  
No hold upon my heart

Your light will terrify the dark  
(Your light will terrify the dark)  
Your light will terrify the dark  
(Your light will terrify the dark)

Where could I run, where could I hide  
You're breaking in on me  
Restore the ruins of my life  
From rags to royalty

I can see you  
I believe you  
I trust you

Your light will terrify the dark  
I call upon the name  
That tears the night apart  
My doubt will answer to your scars  
And fear will have no place  
No hold upon my heart

Your light will terrify the dark  
(Your light will terrify the dark)  
Your light will terrify the dark  
(Your light will terrify the dark)

Break in on me  
'Til all I see is you  
Is you

Break in on me  
Cuz all I need is you  
Is you

Your light will terrify the dark  
(Your light will terrify the dark)  
Your light will terrify the dark  
(Your light will terrify)

Your light will terrify the dark  
I call upon the name

That tears the night apart  
My doubt will answer to your scars  
And fear will have no place  
No hold upon my heart

Your light will terrify the dark  
(Your light will terrify the dark)  
Your light will terrify the dark  
(Your light will terrify the dark)  
No fear has a hold upon my heart  
(Your light will terrify the dark)  
Your light will terrify the dark  
(Your light will terrify the dark)
