

# Undefeated

Skillet

I'm undefeated

Hands on my neck, foot on my back  
Closing in from every side  
Bleeding me dry, I'm fading fast

Left for dead but I will rise up on my own  
I could make it alone, I got all that I need to survive  
(All that I need to survive)  
Through the sweat and the blood, I know what I'm made of  
It's the hunger that keeps me alive  
This time, I'm coming like a hurricane, this time

I came to fight for the love of the game, unstoppable  
That's why I, I'm undefeated  
Off the leash, out of the cage, an animal  
That's why I, I'm undefeated  
I, I, I know I can beat it  
Won't give up cause I believe it  
Fight for the love of the game, unstoppable  
That's why I, I'm undefeated

Here at the edge losing my ground  
Stare into the great divide  
Pushing me over, pulling me down

Almost dead, but I will rise up on my own  
No, I'm never alone and it's all that I need to survive  
(All that I need to survive)  
Through the sweat and the blood, if I fall, I'll get up  
It's the hunger that keeps me alive  
This time, I'm coming like a hurricane, this time

I came to fight for the love of the game, unstoppable  
That's why I, I'm undefeated  
Off the leash, out of the cage, an animal  
That's why I, I'm undefeated  
I, I, I know I can beat it  
Won't give up cause I believe it  
Fight for the love of the game, unstoppable  
That's why I, I'm undefeated

All the strength that I have, all the life that's left in me  
I will give every breath to be everything I can be  
I, I, I'm undefeated  
I, I, I'm undefeated

I came to fight for the love of the game, unstoppable  
That's why I, I'm undefeated  
Off the leash, out of the cage, an animal
