

You Take My Rights Away

Skillet

You take my rights away
You take control, no stopping You
You take my rights away, I can take it
See me let it go
You are in control
Suffer as we grow and we say and we say we don't want to
Holding nothing
You take everything
You're worth anything at all, anything at all
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
You define me with your identity lose my life in You
I can take, I'll take what it costs me
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
You're gonna take my rights away
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
You take my rights away
You take control, no stopping You
You take my rights away, I can take it
