

## You Take My Rights Away

Skillet

You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
See me let it go  
You are in control  
Suffer as we grow and we say and we say we don't want to  
Holding nothing  
You take everything  
You're worth anything at all, anything at all  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
You define me with your identity lose my life in You  
I can take, I'll take what it costs me  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
You're gonna take my rights away  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it  
You take my rights away  
You take control, no stopping You  
You take my rights away, I can take it
