

Don't Need A Reason

Skin

You're on ecstasy
I'm on herbal tea
Take a napkin out
Wipe your sweaty brow

Hail a dirty cab
Stinks of beer and shags
Can't get home too soon

Chorus
I don't need a reason
To take a little ride with you

I can't find my keys
You break in with ease
Slap you round your face
Kiss you with sweet haste

Spinning round the room
Morning rides too soon
Still it's perfect for fools

I need no reason
To take a little time with you
Don't need a reason
To take a little ride with you

You're still off your skull
This is getting dull
Days are dragging past
I will never last

Then you cling so rough
I melt into lust
Can't pretend to play cool
