

## I'll Try

Skin

I don't understand nothing less  
Than this bitter release  
You standing firm but won't talk to me  
Makes it harder to hold on

But I'll try  
I'll try  
I'll try  
Tell me how you feel and I'll try

I don't know what you want from this  
Don't know nothing at all  
Just this vision that I can't leave  
Makes it harder to go on

Tell me how you feel and I'll try

We'll fight this regret  
And smother the doubt  
We'll conquer this

We'll conquer regret  
And smother the doubt
