

Open Eyed

Skindred

I know that you are running
I know that you are running
I know that you are running
I know that you are running

I've gotta make it different, gotta make it loud

We are the sickness, we are the ill
We are the worms that you shoot to kill
We are the hated, we are the birds
We are the worms that come out of the dead

They try to make us follow, make us fail
A hundred million winds won't make us sway
They try to make us follow, make us fail
We are the ones who won't take no more

I know that you are running
I know that you are running
I know that you are running
I know that you are running

We are open eyed.
You stay mystified and your number's fading.
We are open eyed
You stay mystified cause I doubt we'll take it, take it, take it.
cause I doubt we'll take it

We are the hopeless, we are the poor
We are the scum that you move from your door
We are the wasted, we are the worst
We are the ones that they think are cursed

They try to make us follow, make us fail
A hundred million winds won't make us sway
They try to make us follow, make us fail
We are the ones who won't take no more

I know that you are running
I know that you are running
I know that you are running
I know that you are running

We are open eyed.
You stay mystified and your number's fading.
We are open eyed. You stay mystified cause I doubt we'll take it, take it, t
ake it. cause I doubt we'll take it

I know that you are running
I know that you are running
I know that you are running
I know that you are running

We are the open eyed
We are the open eyed
We are the open eyed
We are the open eyed

We are open eyed.

You stay mystified and your number's fading.

We are open eyed. You stay mystified cause I doubt we'll take it, take it, take it. cause I doubt we'll take it.

We are open eyed
