

# Stand Up

Skindred

You say just drink the tonic  
And it will make you super sonic  
Are you trying to murder me  
Coz I will not let it be

Oh I know that your trying to fool me  
And these no way  
Oh I know that your trying to use me  
For that you'll pay

Stand up for your rights make them know  
That their wrongs your right  
Stand up for your rights make them know  
That your wrongs your right

The medication makes me hazy  
And my aggression makes you taze me  
This pills the size of me  
and I will not let it be

Oh I know that your trying to fool me  
But there's no way  
Oh I know that your trying to school me

Stand up for your rights make them know  
That their wrongs your right  
Stand up for your rights make them know  
That your wrongs your right

You gotta win the fight

Life comes out swinging punches  
Took a right on the chin  
The crowd there der pon dem feet  
And everybody's screaming  
With that there punch it nearly lick of your head  
With dem der kinda shots it could ah left you fe dead

Protect yourself at all times  
keep your guide up right  
Keep bobbing and moving and moving  
And bobbing no make him out your light  
You can drop him, you can stop him  
He's on the ropes  
Next thing he's on the ground done

You gotta win the fight

Stand up for your rights make them know  
That their wrongs your right  
Stand up for your rights make them know  
That your wrongs your right

Stand up for your rights make them know  
That their wrongs your right  
(You gotta win the fight)  
Stand up for your rights make them know

That your wrongs your right  
(You gotta win the fight)  
You gotta win the fight...
