

The Fear

Skindred

Time 4 talking to work it all out
Can't take the pressure nuff a de youth dem ah shout
Children dem suffering screams are in vain
An they're dealing with the tormenting again and again
Time 4 stalling lets work it all out
Some will use the tongue 2 spit there venom about
Sticks and stones hurt and words they can kill
Harassment and oppression why can't people just chill

The rude boys are coming
So get out of here
Go find a place to hide be
Co nuff youth dem ah fear
Stand in ah dem way
You know you will disappear
The rude boys are coming and I
I Just don't fear

We DONT
fear rude boy get out of here
With your bully boy tactics you disappear
We don't fear rude gal get out of here
With your bad gal business, disappear

In the play yard the battle is on
And who is going to tell them that their vibes dem is wrong
Teachers shouting no let's sort this out
But when she turns hur back
They smack you straight up the mouth
Going get you with intimidation
Stand up and be counted course a counteraction
Turn the tables to know how it feels
You would want them to stop if it was them on your heels

The rude boys are coming
So get out of here
Go find a place to hide be
Co nuff youth dem ah fear
Stand in ah dem way
You know you will disappear
The rude boys are coming and I
I Just don't fear

We don't fear rude boy get out of here
