

# She's All In The World To Me

Skip James

She's all in the world to me  
She does climbs upon my knee  
And to me she will forever be  
That little, bit-a girl, a-mine

She got two little eyes  
That shine so bright  
Two little arms  
That would caress me so tight  
An two little lips  
That will kiss me, goodnight  
An she's still that little ol' girl a-mine

You know, no one will ever know  
What makes me love her so  
She's rubbin' her little stockin' feet  
As she just tips across my flo'

An she's all in the world to me  
She does climb rights upon my knee  
She told me she will forever be  
That little girl a-mine

Two little eyes that shine so bright  
Two little arms that caress me, so tight  
An two little ol' lips that kiss me goodnight  
Still, she's that little bit of girl a-mine

She's all the world to me  
And she climbs upon my knee  
To me, she'll forever be  
She'll still be that little girl a-mine
