

She's All In The World To Me

Skip James

She's all in the world to me
She does climbs upon my knee
And to me she will forever be
That little, bit-a girl, a-mine

She got two little eyes
That shine so bright
Two little arms
That would caress me so tight
An two little lips
That will kiss me, goodnight
An she's still that little ol' girl a-mine

You know, no one will ever know
What makes me love her so
She's rubbin' her little stockin' feet
As she just tips across my flo'

An she's all in the world to me
She does climb rights upon my knee
She told me she will forever be
That little girl a-mine

Two little eyes that shine so bright
Two little arms that caress me, so tight
An two little ol' lips that kiss me goodnight
Still, she's that little bit of girl a-mine

She's all the world to me
And she climbs upon my knee
To me, she'll forever be
She'll still be that little girl a-mine
