

You want to do it like they do it on TV  
You'd be important if you were famous, oh please

Try a little more then try a little harder  
Trying not to think, is harder than you think

So just leave the motor running  
Throw away the fucking key  
You fucked up from the beginning  
Celebrate stupidity  
Down on your knees

Suck my rock  
Suck my rock

You still do it like it's straight to video  
If you were famous, you'd be better for sure

Try a little more then try a little harder  
Trying not to look, is harder than it seems

So just leave the motor running  
Throw away the fucking key  
You fucked up from the beginning  
Celebrate stupidity  
Down on your knees

Cut twice before you measure  
Don't look either way  
Who wants to live forever  
When dying is on sale today

You want to do it without dignity or shame  
Fifteen seconds later we won't know your name

Try a little more then try a little harder  
Trying not to fall is not trying at all

So just leave the motor running  
Throw away the fucking key  
You fucked up from the beginning  
Celebrate stupidity  
Down on your knees

Suck my rock  
Down on your knees  
Suck my rock  
Down on your knees
