

(This Is My) Elephant

Skold

When you find your motivation
Is an exercise in pain
And the rehabilitation
Will most surely be in vain
You take that ride
You pay the price
And you come to the conclusion
That you won't get out alive

This is my elephant
Ride, motherfucker, ride
This is my elephant
Ride, motherfucker, ride

So you hear a little story
About nothing more to tell
And the sorry little bitches
Drowning in the wishing well
I took that ride
I lost my mind
And I finally realized
It was all a waste of time

This is my elephant
Ride, motherfucker, ride
This is my elephant
Ride, motherfucker, ride

All in all, it's tit for tat, you'll come out fine
'Cause your shit looks good through the looking glass
Fuck all this and fuck all that, silly hat,
Pull that rabbit out of your ass

Intellectual property,
Two for you and none for me
So take that ride
To the winning streak,
The noose goes 'round your neck
While you turn the other cheek

This is my elephant
Ride, motherfucker, ride
This is my elephant
Ride, motherfucker, ride
This is my elephant
Ride, motherfucker, ride
This is my
