

Isolated

Skrape

I feel no pain
I walk right through
A no where man
Learned from you

You get the one that you wished for
You laugh to cry
I guess the one that you wished for
Has made you cry

I told you, some way
So quick to rename
Isolated

My grip is good
I fall to stand
A smile that could
Screams out a plan

You get the one that you wished for
You laugh to cry
I guess the one that you wished for
Has made you cry

I told you, someway
So quick to rename
You're weary, no soul
So quick to rename

[Incomprehensible]

I told you, some way
So quick to rename
You're weary, no soul
So quick to rename

Isolated, isolated
Isolated, isolated
Isolated
